The 2025 St. Thomas Carnival officially ended Saturday night, and aside from the tragic incident that halted festivities early, the thing was a banger. Seriously, when thousands of people stay committed to the sidelines of Main Street to enjoy the parade in what was essentially a rainstorm, you know the vibe was good. We have pictures [here](#), [here](#), and [here](#). We have all kinds of footage, too. From [traditional troupes](#) to the [more popular styles](#), to [ancient Egyptian attire](#). Yes, yes, the women brought out [their waist and revealing costumes](#), and the gorillas [made their way](#) to Market Square waiting for the 100 men battle. *Disappointingly, the boys didn't show up.*

Did we mention the [Shaka Zulus](#) and [Traditional Indians](#)? How could we forget these staples of St. Thomas Carnival.

Anyway, [this troupe](#) definitely brought out the keyboard gangsters. But haters are going to hate; we love the variety that makes St. Thomas Carnival, also known as VI Carnival, one of the best in the Caribbean. Until next year.
