Recall of 6.3M Mistolin, Lestoil Cleaners Includes Products Sold in USVI Over Bacterial Risk

DLCA says certain scented Mistolin and Lestoil cleaners sold in Puerto Rico and the USVI may contain *Pseudomonas aeruginosa*. Consumers should stop using affected products, check PR01 date codes and safely dispose of recalled bottles in household trash.

Mistolin and Lestoil cleaning products are shown in an illustrative collage as certain scented varieties sold in the USVI are recalled over possible *Pseudomonas aeruginosa* contamination. By. V.I. CONSORTIUM.

Virgin Islands consumers are being told to immediately stop using certain scented Mistolin and Lestoil cleaning products included in a recall of approximately 6.3 million bottles because they

may contain *Pseudomonas aeruginosa*, a bacteria that can cause serious infections in people with weakened immune systems or external medical devices.

The V.I. Department of Licensing and Consumer Affairs issued the alert Saturday, saying the recall involves Mistolin Dilutable Cleaners and Lestoil Heavy Duty Multi-Purpose Cleaners manufactured by Clorox Manufacturing Company of Puerto Rico, Inc. The recall applies only to certain scented products sold in Puerto Rico and the U.S. Virgin Islands.

According to DLCA, *Pseudomonas aeruginosa* is commonly found in soil and water. The bacteria can enter the body through inhalation, the eyes or breaks in the skin. People with healthy immune systems are usually not affected, while those with compromised immune systems or external medical devices may face a risk of serious infection requiring treatment.

Products Included in the Recall

The affected Mistolin Dilutable Cleaners include:

- Alegra tu Día
- Espíritu Play
- Flores de Primavera
- Fresco Despertar
- Frescura de Lavanda
- Frescura Tropical
- Manzana y Canela
- Pino y Especias
- Sólo para Ti

The affected Lestoil Heavy Duty Multi-Purpose Cleaners include:

- Energía del Yunque
- Fuerza de Lavanda Tropical
- Intenso Limon Boricua
- Olas de Rincón

Only scented products are included. The affected cleaners were sold in 28-, 40-, 64- and 128-fluid-ounce bottles.

Consumers should also check the date code printed on the side of the bottle. Recalled products have codes beginning with “PR01” followed by a five-digit number between 25091 and 26168, representing products manufactured between April 1, 2025 and June 17, 2026.

Consumers Told to Stop Use Immediately

Anyone with an affected product should stop using it immediately.

Consumers seeking a refund are instructed to register through the recall website and provide a photograph of the 12-digit UPC code on the label along with a photograph of the date code printed on the bottle. The recalled cleaner should then be discarded in its original container with household trash.

Eligible consumers can receive a full refund of the purchase price with a receipt. Those without a receipt may receive the manufacturer’s suggested retail price.

No incidents or injuries associated with the recalled products have been reported.

Clorox Puerto Rico can be reached at 855-215-5439 between 8 a.m. and 8 p.m. Eastern Time. Consumers may also email Mistolinrecall@sedgwick.com or visit the Mistolin recall website for additional information.

The recall is dated September 3, 2026, carries recall number 26-741, and involves products manufactured in Puerto Rico.

DLCA is urging Virgin Islands residents and businesses to inspect Mistolin and Lestoil products in homes and workplaces and share the recall information with family members, employees, caregivers and others who may use the affected cleaners.
