Cynthia is back with yet another wrap-up of the biggest stories this week on VI Consortium! We are so excited about our new feature, Crucianomics--you'll really love this one. Plus, we've rolled out a host of new features on the website, so be sure to stick with us to learn more about what we can now offer you. And, later in the show, Cynthia is joined by Ernice Gilbert, founder/CEO of VI Consortium, for insightful analysis and thoughtful commentary on some of our biggest stories. Enjoy!

Update: After this taping, some senators are now proposing a repeal of the 'Streetlights Bill,' sponsored by Sen. Clifford Graham, that was set in place on Tuesday night. Watch the video to find out more!
