Around 8 p.m. on Monday night at the Sion Farm stoplight, A Mitsubishi Montero and Toyota RAV4 collided when the RAV4, leaving the Sion Farm area, ran the red light and crashed into the Montero that was attempting to enter Sion Farm, a police report has revealed.

Police Officer Arthur Joseph told *VI Consortium* that the witness behind the woman driving the RAV4 indicated that she ran the red light, which led to the collision with the Mitsubishi Montero.

A small dent was left on the front right side of the Montero, however no one was injured and a tow truck was already on the scene working to remove the RAV4 from its overturned position to be transported elsewhere.
