Downtown Christiansted, St. Croix

ST. CROIX -- Government House reported Monday that King Street in Christiansted will be closed for needed repairs starting at 7 a.m. on April 21. King Street from Queen Cross Street going East is the area to be affected.

A detour will be available for smaller vehicles via Strand Street, but larger vehicles and trucks are encouraged to take the Christiansted bypass to avoid the area being repaired, said Government House spokeswoman Kimberly Jones.

For further information about this maintenance-based road closure, please contact Jones at the Office of the Governor at 340-773-1404.
