ST. THOMAS -- A husband and wife damaged each other during a fight on Sunday at about 6:30 p.m., leaving the woman with a gauze tied to her forehead to protect a laceration she sustained, according to information provided by VIPD Public Information Officer Kevin Jackson.

Jackson said Tamika Richards assaulted her husband, Henry Richards, with a bottle and also bit him on the right hand during the altercation. The husband reacted by assaulting his wife with a bottle causing the laceration that required stitches.
