ST. CROIX - The National Parks Service (NPS) here will present a lecture series titled "Activities, Partnerships, and Challenges of the Virgin Islands State Historic Preservation Office's Archaeological Programs" on Thursday, September 10 from 5:30-6:30 p.m. in the Danish Guinea West India Company Warehouse/Slave Market Building in downtown Christiansted.

Clayton Pollock, technical lead with the National Park Service Natural Resource/Biology Team, will speak on the newest research associated with the Wildlife Tracking Project at Buck Island Reef National Monument, according to information received from St. Croix

National Parks in a press release.
