The Virgin Islands Water and Power Authority has scheduled a service interruption for a portion of St. Thomas feeder 6A on Thursday, March 30, 2017, from 9 a.m. to noon. Service will be interrupted to approximately 900 customers in the Bordeaux area, while crews transfer electrical lines and equipment from an old pole to a newly planted pole.

While the work is in progress, motorists in the area are advised to use extreme caution and to observe traffic directions for the safety of the crews and the public.

Every effort will be made to restore electrical service as quickly as possible.
