Viya this week introduced its partnership with multiple local businesses in an effort to bring mobile service to "every neighborhood."

At the following locations, customers can activate new Viya Mobile prepaid kits, which include pre-activated devices, port any U.S. number to Viya, top-up their prepaid phones and pay their bills. The convenient locations across the territory allow customers to get their Viya service everywhere, the telecommunications firm said.

List of authorized partners:

St. Thomas

- ADM Money Transfer
- Wireless Tech
- Union Minimart
- Furniture Plus
- VIP Master Tech

St. Croix

- Cell Works

Viya launched its Phone-2-Go package at all partner channels with a fully kitted device including a phone, sim and service, according to the release. The initial Phone-2-Go offering includes a free Samsung A02 phone with three months of the unlimited talk, text and data plan for only \$120.

Additionally, coming in February, Viya will offer its Viya MiFi (hotspot) service as a prepaid Viya MiFi that customers can easily pick up at any of the partners across the territory and have Internet available instantly.

Customers can switch to Viya Mobile and keep any number including numbers with Puerto Rico and stateside area codes, according to the release. The company said its mobile service is now the most complete wireless option in the territory with its "robust network, economical plans, and seamless coverage across the territory, Puerto Rico, the United States, and the Caribbean."

Viya said it plans to expand the partnerships so customers can purchase a variety of services from mobile, TV and Internet services and sign-up on the go. These locations are in addition to the recently launched Express Retail Kiosks that are available at The Market in St. Thomas and The Market in St. Croix.

Viya said it is committed to being everywhere. Learn more about Viya's dealers by visiting the website: www.viya.vi.
